### ANEW Summer Networking Event:

Join us this June for a special ANEW networking event with a patriotic twist as we celebrate the semi quincentennial—the 250th anniversary of the signing of the Declaration of Independence.

This isn't your typical networking event. It's an opportunity to come together as a community of women, reflect on the spirit of independence, and celebrate the connections that empower us today.

Expect an engaging and welcoming atmosphere where meaningful conversations, new connections, and a shared sense of purpose take center stage. Whether you're a longtime member or new to ANEW, this event is designed to help you expand your network in a fun, relaxed setting.

We encourage our members to wear Red, White and Blue for this event.

## President's Letter

Welcome Summer!

June brings sunshine and summer! As our nation approaches its **250th birthday**, we're taking a moment to celebrate the spirit of community, courage, and connection that has shaped America from the beginning. And what better way to honor that legacy than by strengthening the connections right here in our own network?

June is one of “Just Networking” events giving all of us a chance to connect with some members that we don’t know well or reconnect with members who we haven’t talked to in awhile. America’s story has always been about people coming together — sharing ideas, supporting one another, and building something bigger than themselves. That’s exactly what our group does every time we meet. Wear you Red, White and Blue to the meeting this month to show your patriotism.

Warm Regards,

Michelle Smith

ANEW President 2026

## Member Highlight

### Stacey Stevens Landmark Realty & Development

#### Learning from a Mentor

I have been blessed to have many amazing mentors in my life. The best mentor of all was my mother, Donetta Epperson. One of the best lessons she taught was not to take life too seriously. I have always been very responsible and conscientious and sometimes took things so seriously, that I missed the joy. To approach life with love, grace, and a little bit of humor sure makes it easier and more joyful.

#### Career Path

My career path has been circuitous. I have a geology degree from Purdue and graduated when oil prices were \$8 per barrel. There were no jobs for geologists. I came home to Evansville to work for my father in his construction business. I was hearing words like equity and amortization, words I had not heard in the School of Science, so I took a real estate class to learn the vocabulary and started working in real estate. In the next 40 years I would manage the Tucker office, be a VP in mortgage banking at Citizens Bank, manage 59 commercial properties in 8 states for Brill Media, and buy Landmark Realty & Development and sell residential and commercial properties.

#### Most Satisfying Part of My Job

The most satisfying part of my job is helping people achieve their objectives in real estate. From a first-time home buyer to a 90-year-old widower. I love to practice patience, kindness, love, and humor while using the knowledge and skills I have honed in real estate over the past 40 years.

## Relaxing Habits

Working in the yard or garden and engaging in wood working are my most relaxing activities. I particularly enjoy repurposing items and restoring them, giving them new life and purpose.

## When I was little...

When I was little I wanted to be an Entomologist. I didn't think I could make a living doing that and I loved nature, science, and being outside. I had done an internship with Black Beauty Coal in high school and worked at Beeson Oil one summer, so I migrated toward geology.

## What ANEW Means to Me

I think ANEW is one of the most unique organizations in Evansville. I love the exchange of ideas and the variety and diversity of the members. It is truly women helping women in business and beyond. I am always blessed by the introductions and the connections that are made at each and every meeting.
